

## LIST OF CORRECTIONS

This publication has been prepared primarily by assembling and binding the maps and tabular materials originally issued in the separate PC(1)-A, B, C, and D final reports for the State. This plan was adopted in order to conserve public funds. The corrections listed below represent changes which would ordinarily have been made if this publication had been prepared by reprinting these maps and tabular materials. Those items with an asterisk (\*) consist of

errors which affect not only the specific figure(s) mentioned but also affect other data in this publication. Among the other data which might be involved are the statistics for a larger area of which the particular area is part and the statistics by such classifications as urban-rural residence and size of place. The user can, of course, carry through these types of changes if he thinks them worthwhile.

Page 10, table 6

County	Land area in square miles, 1960		Population per square mile	
	From	To	From	To
Adams.....	1,246	1,245	96.5	96.6
Arapahoe.....	818	814	138.7	139.3
Denver.....	66	71	7,483.1	6,956.2

Tables 35, 37 to 44, 46 to 52, 54 to 58, 60, 61, 63 to 65, 67, 69, 71, and 91 to 93

In the chapter C tabulations for Colorado, 112 persons (almost all males) living in group quarters that housed agricultural workers were classified incorrectly as rural-nonfarm residents. These quarters were located on farms, and hence these persons should have been classified as rural-farm residents. All chapter C tables which present data on farm-nonfarm residence are subject to this error. The overall impact is relatively minor, amounting to a fraction of one percent of the total rural-nonfarm and of the total rural-farm figures, respectively, for males. The impact of the error on the figures for particular groups or areas may, of course, be substantially greater. When this error was discovered, it was no longer feasible to retabulate the chapter C data. In the chapter D tabulations, however, the error was eliminated; and therefore, for certain subjects, correct State figures can be obtained from the appropriate chapter D tables. For corrections in chapter C table 37, see chapter D table 95; 38, see page 44 and 46, see 101; 47, see 103; 48, see 104; 49 and 50, see 106 and 107; 51, see 113; 52 and 54, see 115; 55, see 118; 57, see 121; 65, see 139; 67, see 133; 71, see specific subject tables listed above.

Page 108, table 57\*

Occupation group and sex	The State		Urban		Rural farm		Percent distribution The State	
	From	To	From	To	From	To	From	To
<b>Male:</b>								
Construction craftsmen..	25,267	25,164	18,724	18,625	704	700	6.0	5.9
Other craftsmen.....	16,077	16,180	13,356	13,455	274	278	No change	

Page 110, table 59\*

For "Construction craftsmen," under "Number, 1960," change 25,267 to 25,164; under "Percent distribution, 1960," change 6.0 to 5.9; and under "Percent increase, 1950 to 1960," change 14.5 to 14.0. For "Other craftsmen," change number from 16,077 to 16,180, and percent increase from 20.3 to 21.1.

Pages 116, 117, 142-144, and 172-176, tables 65, 76, and 86

The stub line "Husband-wife families, one earner, two children under 18 years" should read "Husband-wife families, head an earner, two children under 18,"

Page 193, table C-2

The nonresponse rates for "Birth date, decade unknown" erroneously exclude nonresponses for group quarters members other than inmates.

Pages 207 and 208, table 99

Add footnote symbol 3 to the line for "Other West Indies."

Pages 283, 289, and 295, tables 120 and 121

Under "Laborers (n.e.c.)" the 15 lines from "Machinery, exc. electrical" through "Miscellaneous manufacturing industries" are indented two spaces too many.

Pages 296-317, tables 122 to 124

On each page showing Male, Operatives and kindred workers, the line reading "Furnacemen, smeltermen, and heaters" should be changed to "Furnacemen, smeltermen, and pourers."

Pages 296-329, tables 122 to 125

On each page showing Male, Craftsmen, foremen, and kindred workers, the line reading "Cranemen, hoistmen, and const. mach. operators" should be changed to "Cranemen, derickmen, and hoistmen."

Page 348, table 131\*

During the tabulation of statistics on place of work, it was discovered that some enumerators working in unincorporated areas near large cities had failed to identify correctly these large cities as places of work (see text, p. XXXVI). In the tabulations for chapter C, a corrective mechanical edit was introduced that allocated such cases to the largest city in the same county. In some few instances, notably Armed Forces installations, the initial entries were correct, and appreciable numbers of persons living in the ring were incorrectly assigned the central city as a place of work by the edit.

Since many of these persons had reported themselves as working at home, the previous edit was expended in the tabulations for chapter D to assign these latter cases, as well as other inconsistencies of the same type, to means of transportation not reported. The amount then by which the chapter D figure exceeds the chapter C figure for the "not reported" category in means of transportation for persons living in the SMSA ring provides a rough measure of the amount of the error involved; that is, the amount by which the total figure in column 8 should be decreased and the total figure in column 9 increased. This number was 6,222 for the Colorado Springs SMSA. In the remaining SMSA's of the State of Colorado, the same type of error existed, but very little data is available on the characteristics of the misclassified persons in not available, but most of them were young men in the Armed Forces.

Page 374, table D-1

The following explanatory footnote should be keyed to the line for "Not reported" in the section on "Relationship":

Limited to persons who were allocated to the categories "Wife of head," "Other relative of head," or "Nonrelative of head,"

Page 374, table D-1

The category "Not reported in decade or year" under "Age" erroneously excludes non-responses on decade of birth for group quarters members other than inmates.
